

## **Creative Zone opens over 2,500 companies**

**United Arab Emirates, Dubai, XX September 2014—** After four years in the market, Creative Zone, the business setup service designed to make your life easier, has hit a new milestone: they have assisted in opening over 2,500 companies.

Creative Zone has found that, since 2010, the top industries, recently, are: business and communications; media, marketing, and events; business management, IT consultancy, and HR consulting. With the Creative Zone's focus on ensure and witnessing the success of their clients' business and its growth, they have worked towards creating environments that cultivate, nurture, and develop initial ideas into comprehensive organisations that are consistently prepared and equipped for further growth and improvement.

Steve Mayne, co-managing director of Creative Zone, described the vision and mission of the organisation succinctly, explaining the dedication they have had for the 2,500 companies they have helped launch: "we always aim to build upon the strong platform we've created for entrepreneurs to be prepared to conduct business and operate in the region at their best. We aim to build a strong company culture based on trust, mutual respect, and commitment, which, in turn, drives customer service and emphasises our primary vision: our clients are the heart and soul of our business and supporting them in their success is our highest priority."

The company's primary focus is facilitating the setup of business for foreign and local entrepreneurs, and they are experts at company formation, whereby we ensure that no ends are left unwrapped. The way Steve Mayne puts it: "we understand that it can be cumbersome to deal with local government and municipality, particularly if you are not familiar with the typical red tape associated with the UAE; with our concern essentially being our motivation to help our clients to make the best decision, not our sales, we do all we can to ensure that entrepreneurs can focus on building their companies and making them a success."

Creative Zone constantly pushes for the best it can offer, understanding that product and service, the quality of the work, comes before and ahead of volume and sales.

Once you can do what you do better than anyone else, the revenue will flow. They make sure the companies they help have no unnecessary distractions, and their 2,500 companies so far have felt that experience and seen success because of it.
